

## **NGX continues to expand its product offering in the US power markets with the Launch of the ERCOT Real-Time Power Index**

NGX is excited to announce the launch of the ERCOT Real-Time Power Index products for ERCOT North Hub. The new power index products will commence trading February 10<sup>th</sup> pending regulatory approvals and will be made available via WebICE. Some of the benefits of clearing these new products are:

- **No initial margin required for NGX power index**
- **Allows clients to receive ERCOT Real-Time SPP pricing**
- **Allows clients to transact physical delivered power in ERCOT via Day-Ahead schedules and avoid RUC**
- **Improves collateral efficiencies with NGX**
- **As with other ERCOT products straight-through processing via WebICE and ICE's application for OTC transactions, ICEBlock**

Your NGX marketing representative will contact ERCOT traders in the coming days to discuss product specs and benefits in more detail. As always we are more than happy to answer any questions you may have as we continue adding additional NGX products and clients to further expand our member's liquidity. We appreciate your patronage and look forward to meeting your requirements into the future.
