

September 6th – Mock Auction

2:00 pm – Participate from your desktop

Mock auctions will provide an opportunity for existing and prospective EnviroPath participants to get hands-on experience using the EnviroPath platform. Accessed from your desktop, you will be able to enter and adjust bids (price/quantity) in an auction with other market participants and explore the other functionality of the site including customizing settings and reviewing market data reports.

In addition to the mock auction, support for platform questions, connectivity and functionality will be provided by NGX operations who can be reached by phone or email before, during and after the auction. Participation will be anonymous and there is no obligation to join EnviroPath.

Should you be interested in participating please email enviropath@ngx.com at least two business days before the auction date to receive login.
