

NGX Sets Monthly Volume Record

CALGARY Aug 14 2008 -- NGX, Canada's leading energy exchange and North America's largest physical clearing and settlement facility, established a new record in July for trading and clearing of its North American natural gas and electricity contracts.

Total volume was 1,283.4 billion cubic feet of natural gas equivalent (1,347,483 terajoules). The previous record was 1,241.0 bcf (1,302,991 TJ) in May 2008.

About NGX

NGX is Canada's leading energy exchange and North America's largest physical clearing and settlement facility. Since 1994, NGX's unique market model has provided traders with one of the most highly liquid, secure and efficient environments available for trading and clearing natural gas and electricity contracts. NGX is based in Calgary and wholly owned by [TSX Group](#), which collectively manages all aspects of Canada's senior and junior equity markets. In February 2008, NGX launched a technology and physical clearing alliance with the Intercontinental Exchange (ICE). For more information visit www.ngx.com.
