

NGX Expands Clearing Capital Base By Increasing the NGX Emergency Fund

NGX is pleased to announce the strengthening of its clearing capital base through an increase to the NGX Emergency Fund. The NGX Emergency Fund capital allocation will be increased to USD \$100 million from the existing CAD \$30 million. The NGX Emergency Fund is accessible by all Contracting Parties through the Deposit Agreement with CIBC Mellon Trust Company in the event of a default by NGX.

On November 1, 2007, NGX and CIBC Mellon Trust Company executed an Amended and Restated Deposit Agreement to reflect the increase in the NGX Emergency Fund available to Contracting Parties from CAD \$30 million to USD \$100 million. The revisions to the Amended and Restated Deposit Agreement are effective on November 1, 2007 and a copy is available in the Secure Area of NGX's website, www.ngx.com.
