

NGX Introduces new Financial Future Ontario Power products

NGX, in coordination with ICE, will add Ontario Michigan and Ontario New York Baseload (24x7) financial future intertie contracts for NGX clearing available Thursday November 20th. These new products will be available as standalone contracts as well as spreads to the Baseload Ontario financial future contracts. New intertie contracts and spreads will be available for posting on the ICE screen.

These new Ontario intertie products will settle against the daily simple average of ENGY pricing as published by the IESO.

In addition to WebICE, transactions can also be consummated:

- Via voice brokers and entered into ICE Block
- By submitting principal OTC deals directly to NGX for clearing

To access these products, please ensure they are added to your NGX enabled portfolio.

NGX is North America's largest physical clearing organization with offices in Calgary, AB and Houston, TX. NGX is registered as both a Derivatives Clearing Organization (DCO) and a Foreign Board of Trade (FBOT) under the CFTC.
