Re: NGX Announces a System Constraint Period at PG&E Citygate due to Low Inventory System-Wide OFO

NGX is declaring a system constraint period (SCP) at all PG&E Citygate markets cleared on NGX, effective **Gas Day April 2nd, 2008**. The SCP is in reference to the announcement by PG&E of a low inventory system-wide OFO.

Please note that all transactions cleared on NGX are considered to be firm, and all counterparties are expected to meet any physical delivery or receipt obligations.

The SCP is referenced in Article 5 of the NGX Contracting Parties Agreement, and states that physical failure of delivery obligations during system constraint periods will result in financial penalties by the Exchange.

Details of PG&E's OFO declaration can be found at this link.
