April 2, 2008

Re: System Constraint Period Ended at PG&E Citygate

NGX is ending the system constraint period (SCP) at all PG&E Citygate markets cleared on NGX, effective **Gas Day April 3rd, 2008**. The SCP was in reference to the announcement by PG&E of a low inventory system-wide OFO for April 2nd, 2008. As the OFO has now been lifted, NGX has ended the system constraint period for any transactions cleared on April 3rd. Note that any failures on transactions flowing on April 2nd are still subject to the SCP penalties as outlined in Section 5 of the NGX Contracting Parties Agreement.

Please contact your NGX Marketing Representative or the NGX Operations Desk at 403-974-4357 with any questions or concerns.
