Launch of new NGX Cleared Points

On behalf of NGX and ICE, we are pleased to announce three new pooling points that will open for physical clearing effective **January 19, 2010**.

The new locations are: **El Paso San Juan, TETCO WLA and Transco's Station 85.**

Cleared physicals provide an opportunity to obtain the best absolute price with the expansion of counterparties under fully anonymous trade cycles, all with the confidence of secured credit facilities. In addition, all transactions are firm and nominations are netted prior to scheduling, thus minimizing operational concerns. Cleared physicals represent a compelling value in today's credit constrained markets.

For existing NGX Clients, additional information will be forthcoming that will enable you to leverage cleared services for these new locations.
