

**REMINDER**  
**NGX Index FX Rate Change**

As of April 30<sup>th</sup>, 2017, The Bank of Canada will no longer publish the daily noon rate that NGX has used historically to convert our daily and monthly indices from CAD to USD.

(<http://www.bankofcanada.ca/2016/12/bank-canada-announces-details-forthcoming-changes/>)

As such, on May 1, 2017, NGX will begin to convert our indices to USD using the WM/Reuters 12NOON EST FX Benchmark.

The revised NGX Index Methodology Guide (effective May 1, 2017), which outlines how the new rate will be used, can be found here: <http://www.ngx.com/pdf/NGX%20Index%20Methodology.pdf>

Information on the WM/Reuters 12NOON EST Benchmark can be found here:
