

WattEx Transition

WattEx markets will be migrating to the new NGX TradePath platform in July, 2014. Currently the launch date is set for July 7th with mock trading sessions running from June 16th to 20th.

This guide is aimed at current WattEx Customers and contains information about the following:

- The transition timeline, including customer training events and the target launch date.
- New location for current WattEx Reports.
- Provides information intended to assist customers in preparing for this change.
- Describes what will be changing from a customer perspective.

WattEx customers should note:

- The only way to access WattEx trading and data after the launch will be through the NGX Reports, NGX TradePath and the WattEx Connector. NGX TradePath can be accessed directly through wx.ngx.com.
- The WattEx Connector interface will remain unchanged.
- Cost of access will remain unchanged.
- WattEx Fee structure changes will be in effect starting July 1 and all other ASECA amendments will be in effect on system launch.
- Invoicing process will change as of August 2014.
