

WattEx Upgrade - Nov 6, 2014

WattEx will be upgraded on the NGX TradePath system after market close Wednesday, November 5th for trading November 6th.

No action is required by customers for this upgrade.

Along with a few minor bug fixes, some of the noteworthy changes are:

- Market Summary Screen:
 - Right Click option for New Order, Market Depth & Market Depth Pop-Out

- Order Book:
 - New Pop-Out functionality
 - Improved sorting capability
 - Right click option for order Edit or Delete

- Market Depth:
 - Market Depth windows will now open left to right
 - 14 Market Depth windows can be opened up within the application

- Order Window can be opened with 'Shift + O' shortcut key

- New 'Help' Menu item which includes:
 - User Manual
 - NGX Help Desk contact information
 - Current Market Trading Schedule

If you have any questions, please contact the NGX help desk 403-974-4357.
